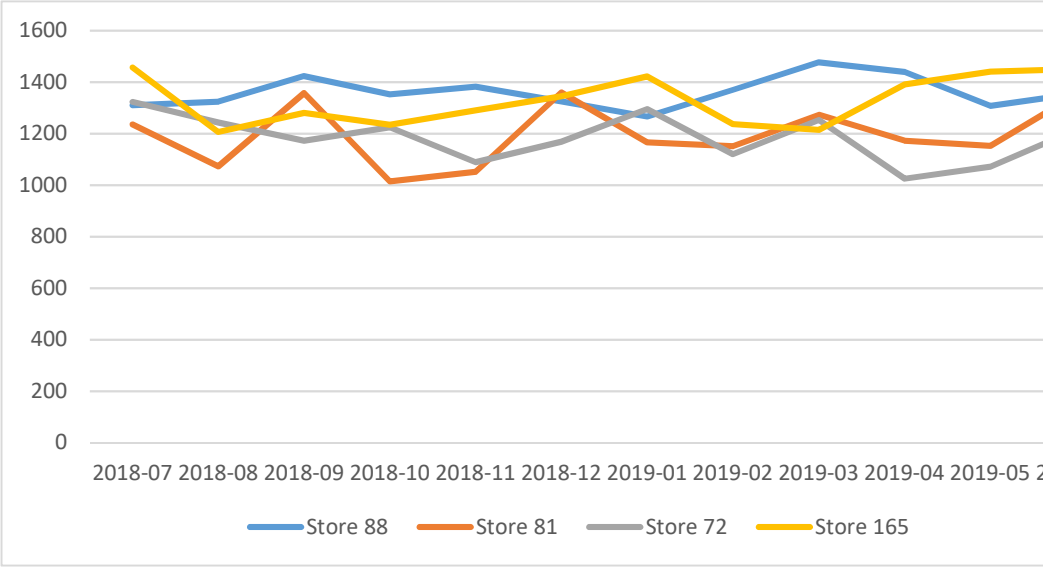
2019-04	1439.4	1172.5	1025.4	1391.7
2019-05	1308.25	1152.05	1071.9	1441.05
2019-06	1354.6	1351.7	1215.2	1450.3
	16333.3	**14362**	**14204.4**	**15973.75**



"Store 165 was selected as the control store for Store 88 due to its similar sales magnitude and closely aligned monthly sales tre
trial period."

Period	**Store 77**	**Store 89**
Before Av	242.714	198.043
During Av	259	192.167
% Change	7.02479	-3.0303

"Store 77 experienced a 7% increase in average sales during the trial period, while the control store (Store 89) showed a 3% decline. This indicates that the trial had a positive impact on sales performance."

Period	Store 86	Store 83
Before Av	874.264	819.971
During Av	929.4	807.267
% Change	6.30653	-1.54942

"Store 86 showed a 6.3% increase in average sales during the trial period, while its control store (Store 83) experienced a 1.5% decline. This indicates that the trial had a positive impact on store performance.

Period	Store 88	Store 165
Before Av	1340.51	1319.69
During Av	1428.93	1281.53
% Change	6.5959	-2.89102

"Store 88 recorded a 6.6% increase in average sales during the trial period, whereas its control store (Store 165) experienced a 2.9% decline. The consistent growth in the trial store compared to the decline in the control store indicates that the trial layout had a positive impact on sales performance."

Trial Store	ontrol Sto	rial Chang	ntrol Change
77	89	**7.00%**	**-3.00%**
86	83	**6.30%**	**-1.50%**
88	165	**6.60%**	**-2.90%**

"Across all three trial stores (77, 86, and 88), there was a consistent increase in average sales during the trial period compared to their respective control stores. While trial stores experienced growth between 6–7%, control stores showed a decline in performance. This indicates that the trial store layout had a positive impact on sales. Therefore, it is recommended to roll out the new layout across all stores."
